Before any trenching for temporary or permanent electric services can be started, these lines need to be located as noted:

1. Temporary service should be set no more than five (5) feet from the electrical source, unless otherwise instructed
2. Water service line
3. Sewer line
4. Any private underground service line

You can have the first three (3) items located for you by making a free call to the *Indiana Underground Plant Protection Service (IUPPS)* at **1-800-382-5544**. IUPPS will notify all members in the area that need to locate their underground facilities and you will need to allow two (2) full business days for the locates to be completed.
